

The Case Against Hepatitis B Vaccination: Prevent Your Newborns Infants from Being Permanently Injured (Paperback)

Filesize: 4.12 MB

Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

THE CASE AGAINST HEPATITIS B VACCINATION: PREVENT YOUR NEWBORNS INFANTS FROM BEING PERMANENTLY INJURED (PAPERBACK)

Techdoc, Incorporated, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Government laws and recommendations coerce us into receiving dozens of vaccinations. Every year, millions of newborns and infants are injected with genetically-engineered pathogens, dangerous metals and industrial chemicals-called vaccines. The hepatitis B vaccine is administered moments after the child is born, immediately putting the newborn on the path of disease. There is a direct link between vaccinations and the broad range of diseases now plaguing newborns, infants, toddlers and adolescents. This makes childhood vaccinations the citizenry s most urgent health issue, today. This book refutes the CDC s rationale for the universal vaccination of newborns and infants with hepatitis B vaccines, while describing the political and economic corruption associated with public health vaccination laws and recommendations.
