## OUTLINES OF METAPHYSICS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Outlines of Metaphysics The chief difficulty of such an attempt lies in the necessity of combining two requirements that appear almost incompatible with one another. A text-book that is to be of any real value to the student must be alive. To point to the various problems as if they were specimens in a museum, would obviously be to fail entirely in the object that is aimed at -viz., that of bringing out the vital relationships of the various points that have to be considered. On the other hand, a text-book of this kind must not aim at superseding, in the minds of those who use it, the works to which it is an introduction. I have kept both these points steadily in view; but I can hardly hope that I have been completely successful in avoiding the dangers to which I refer. My aim at least has been to produce a book which is a living unity within itself, and which yet points continually outwards to the larger life of the speculative thought of the world.
