Thames & Hudson Ltd. Paperback. Book Condition: new. BRAND NEW, The New View Over Atlantis (New edition), John Michell, Across much of the earth's surface are ancient earthworks and stone monuments built for an unknown purpose. Their shared features suggest that they were originally part of a world wide system; and John Michell argues that they served the elemental science of the archaic civilization which Plato referred to as Atlantis. In this connection the most significant modern discovery is that of 'leys', the mysterious network of straight lines which link the ancient places of Britain and have their counterparts in China, Australia, South America and widely elsewhere.
