God's Arms Around Us

By Moule, William R.

Blue Dolphin Publishing, Inc, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: December, 1941. William R. Moule, American miner working in the Philippines, his wife who was expecting a baby, and their two young children found themselves trapped by the invading Japanese. Rather than go into a concentration camp - and believing that the war would soon be over - the Moules took to the mountains. God's Arms Around Us is an epic of courage and faith - the experiences of a family that survived nearly three and a half years of horror - fleeing the enemy, searching for food, building concealed shelters, and eventually enduring captivity. The baby was born while they were still in hiding. There was no possibility of a Robinson Crusoe-type survival - staying in one place and making the most of it. The Moules had to be on the move continually, climbing mountains, fording streams, trekking across strange terrain in the darkness with enemy planes overhead and patrols covering the paths. Yet through it all, very seldom did William Moule lose his Irish sense of humor, and very seldom did his wife, Marge, fail to smile with him....

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
