MULTIDIMENSIONAL NMR METHODS FOR POLYMER CHARACTERIZATION

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Application of New nD-NMR Techniques in Complex Polymer Characterization | Multidimensional (nD) NMR spectroscopy has become a powerful and indispensable tool in elucidating the structures and dynamics of large macromolecules. This technique has routinely been used for microstructure analysis of copolymers for decades. A detailed knowledge of the structural features of a polymer is important to establish the structure-property relationship. But the complexity of polymer microstructure is increasing as more than two...
