Hamid Dabashi s 1997 work *Theology of Discontent* reveals a creative thinker capable not only of understanding how an argument is built, but also of redefining old issues in new ways. The Iranian Revolution of 1978-9 was front-page news in the West, and in some ways remains so today. Though it was an uprising against authoritarian royal rule, with a coalition of modernisers and Islamists, the revolution saw the birth of a new Islamic Republic that seemed to reject pro-Western democracy. Dabashi wanted to analyze the real reasons for this change, while examining how Islamic ideologies contributed to the revolution and the republic that followed. *Theology of Discontent* examines different Islamic thinkers, analyzing how views with seemingly little in common contributed to the modern Iranian belief system. Beyond its insightful analytical dissection of these eight thinkers, *Theology of Discontent* also shows Dabashi s creative thinking skills. Reframing the debates about Iran s relationship with the West, he traced the ways in which Iranian identity formed in reactive opposition to Western ideas. In many ways, Dabashi suggested, Iran was trapped in a cycle of deliberately asserting its difference from the West, a process that was fundamental to the development of its own unique brand of revolutionary Islamism.
