

Carbon and Nutrient Fluxes in Continental Margins

By Kon-kee Liu

Springer-Verlag Gmbh Dez 2009, 2009. Buch. Condition: Neu. Neuware - This book is a product of the joint JGOFS (Joint Global Ocean Flux Study)/LOICZ (Land-Ocean Interactions in the Coastal Zone) Continental Margins Task Team which was established to facilitate continental margins research in the two projects. It contains significant information on the physical, biogeochemical, and ecosystems of continental margins nationally and regionally and provides a very valuable synthesis of this information and the physical, biogeochemical and ecosystem processes which occur on continental margins. The publication of this book is timely as it provides a very strong foundation for the development of the joint IMBER (Integrated Marine Biogeochemistry and Ecosystems Research)/LOICZ Science Plan and Implementation Strategy for biogeochemical and ecosystems research in the continental margins and the impacts of global change on these systems. This initiative will move forward integrated biogeochemical and ecosystems research in the continental margins. We thank all the contributors to this volume and especially Kon-kee Liu who has dedicated a great deal of time to ensuring a high-quality book is published. IMBER Scientific Steering Committee Julie Hall LOICZ Scientific Steering Committee Jozef Pacyna v 1 Preface In general, interfaces between the Earth's larger...

Reviews

Merely no words to explain. I really could comprehend everything out of this published ebook. I found out this publication from my dad and i suggested this publication to learn.

-- **Prof. Margarita Ledner PhD**

This written pdf is fantastic. It normally is not going to expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.
