Neuware - Master's Thesis from the year 2003 in the subject Business economics - Miscellaneous, grade: 1,0, Kingston University London (unbekannt), language: English, abstract: Inhaltsangabe:Abstract: The dissertation analyses whether or not and to what extent the managers of German open-ended property funds see a necessity for amendments to the current German property valuation standards in the context of an increasing demand for European convergence in valuation practice. A critical review of the literature is structured in two chapters: (1) European valuation convergence; and (2) legal background and valuation standards in Germany in a European context. Three main drivers for European convergence have been identified, namely international investment, International Accounting Standards (IAS) and the new Basel Capital Accord. The Cost Approach is meaningless for the valuation of open-ended funds. Alternative international approaches are Term & Reversion, Layer, Equivalent Yield and DCF. 13 rating scale and 9 open-ended questions were extracted from the above headings and were assessed by 8 managers of open-ended property funds. Further in depth information could be gathered by semi-structured and unstructured interviews with 5 of these...
